

1 Piece Shaft using your Slip Yoke & Regular Rear Pinion Yoke

- **IMPORTANT: Suspension must be at normal ride height**
 - **Wheels on ground or diff loaded (wheels not hanging on lift)**
 - **Take all length dimensions from vehicle - NOT the old driveshaft**
 - **Slip yoke must be fully inserted all the way into transmission**
- We will calculate the correct slip travel**

NOTE:
 OE Ford 8" and 9" Pinion yokes can use either a 1 1/16 or 1 1/8 cap diameter. This is only 1/16 different but is critical that this is checked carefully. Call if you have any questions.

Vehicle Type: _____
